Art Unit: 2164

*Election/Restriction*

1. Restriction to one of the following inventions is required under

35 U.S.C. 121:

I. *Claims 1-38 and 58-67*, drawn to a business method for facilitating transactions between buyer and seller, classified in class *705/39*.

II. *Claims 39-57*, drawn to a method for facilitating business transactions in booking of airline carriage between buyer and seller, classified in class *705/6*.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particular of the subcombination as claimed because the transaction between the buyer and seller can be facilitated without the specific method of bidding airlines flight as described in group II. The subcombination has separate utility such as a generic

bidding process for items other than airline tickets. The selling of airline tickets is generally known to require additional constraints, e.g. reservation times, routs, stop overs etc. which is recognized as a different technological endeavor than generic bidding per se.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Hanchuk (35,179) on July 26, 2000 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Jeffrey Pwu, whose telephone number is (703) 308-7835.
